SUMMARY

With over 9 years of experience in IT support, I possess expertise in IT systems, problem-solving, and technical support. My biggest career achievement includes leading a team to execute a significant data migration project, reducing operational costs for the company.

EXPERIENCE

Senior IT Support Engineer

Tech Solutions Ltd

📅 03/2019 - Present 📍 Glasgow

- Delivered comprehensive technical support for over 300 company users, ensuring a 99.5% uptime for critical systems
- Implemented a new ticketing process that improved resolution efficiency by 20%, greatly enhancing customer satisfaction
- Led a team of 5 to successfully migrate company data to a hybrid cloud environment, reducing costs by 24%
- Spearheaded the deployment of a new network security solution that cut down incident response time from 8 hours to 2 hours
- Initiated a training program for non-technical staff, increasing the company's self-service rate by 15% and reducing IT support requests
- Managed the IT infrastructures of 10+ small businesses concurrently, resulting in a 10% increase in contract renewals

IT Support Technician

DynamicTech

📅 08/2016 - 02/2019 📍 Edinburgh

- Provided effective technical support to 150+ end-users in a dynamic business environment, achieving a 98% satisfaction rate
- Initiated a weekly backup regime which enhanced data recovery success by 35% following outages or incidents
- Resolved a persistent network bottleneck which increased network throughput by 30% for core business operations
- Efficiently managed software upgrades for all workstations, leading to a 40% decrease in compatibility issues
- Collaborated with the security team to conduct regular system audits, bolstering overall IT infrastructure integrity

Technical Support Analyst

InnoTech Solutions

📅 01/2014 - 07/2016 📍 Glasgow

- Addressed and solved an average of 25+ user tickets per day with a consistent customer satisfaction rating above 95%
- Automated software deployment tasks using scripting, saving the team approximately 5 hours of manual work per week
- Played a key role in a 50-user office relocation project, ensuring smooth transition with zero downtime
- Optimized the use of virtualization for testing environments, slashing provisioning time by 60%

EDUCATION

Master of Science in IT Management

The University of Edinburgh

📅 01/2011 - 01/2013 📍 Edinburgh

Bachelor of Science in Computer Science

University of Glasgow

📅 01/2007 - 01/2011 📍 Glasgow
